\* Education data are based on the International Standard Classification for Education (ISCED). ISCED 1 corresponds to primary level or less than secondary education.. Upper secondary education refers to ISCED 3 and cover A levels, Baccalaureat, Abitur or equivalent vocational education. For some countries, the end of ISCED 2 marks the end of compulsory schooling. For others, the boundary between ISCED 2 and ISCED 3 is less clear. Tertiary education (university and non-university programs) refers to ISCED 5-7
